Education

Master of Science - Computer Science

DigiPen Institute of Technology

Sep 2023 - Apr 2025

Redmond, WA

Bachelor of Science – Liberal Arts and Engineering Studies

California Polytechnic State University

Sep 2018 - Dec 2022

San Luis Obispo, CA

Skills

Programming Languages C++ | C | C# | OpenGL | Python | Java | HTML

Technologies Git | PyTorch | TensorFlow | SQL | Unity | Maya | ADO | Adobe CC | MS 356

Experience

Lionbridge Games | Xbox Game Studios

QA Test Associate

Apr 2026 - Present

Redmond, WA

- Debugged and identified gameplay, performance, and stability issues providing clear documentation.
- Executed assigned test cases and performed ad hoc sessions across different game builds and features.

Barnes and Noble

Bookseller and Barista

Jul 2021 – Apr 2026

San Luis Obispo, CA | Kirkland, WA

California Polytechnic State University

Teaching Assistant

Sep 2021 – Sep 2022

San Luis Obispo, CA

- Collaborated with faculty to support instruction in courses covering user experience, programming, game design.
- Led seminars and review sessions to reinforce key concepts for undergraduate computer science students.
- Provided individualized and small group tutoring focused on coding challenges and game development techniques.

Kelseyville Unified School District

Network Analyst Assistant

Jun 2017 – Aug 2019

Kelseyville, CA

- Designed and launched a new digital student identification system and distributed laptops for 1500+ students.
- Provided IT support working on key projects for a school district including end of school year roll over projects.

Projects

3D Game Engine – Grappling with Ideas

Graphics Programmer, Producer

Aug 2024 – Apr 2025

Redmond, WA

- Managed a multidisciplinary team of five in the full production cycle of a custom 3D game engine over 30 weeks, using C++, GLSL, and Lua scripting.
- Oversaw sprint planning, documentation, and milestone delivery to ensure technical scope and team alignment.
- Designed and implemented a single-player platform runner featuring responsive grappling mechanics and accurate swing momentum physics for fluid traversal.

2D Game Engine – Lance-A-Lot

Graphics Programmer, Co-Producer

Jan 2024 – Apr 2024

Redmond, WA

- Directed a 4-person team in building a custom 2D game engine from scratch using C++ and GLSL, delivered within a 15-week development cycle.
- Simultaneously developed a local 4-player platform fighter with a physics-driven system to test and demonstrate engine capabilities.
- Led integration of gameplay systems, render pipeline, and collision detection while maintaining production timeline.

VR Audio Visualizer – Dream Sequencer

Developer, Designer

Mar 2022 – Dec 2022

San Luis Obispo

- Designed and programmed a Unity-based VR audio visualizer focused on immersive education, using C# and C++ to develop audio-reactive visuals and interactive environments.
- Conducted extensive competitive research and user testing to guide production direction, improve VR usability, and align features with emerging trends in immersive media.
- Built and iterated multiple prototypes leading to refined user experiences, improved performance, and positive user feedback.

Leadership and Community Involvement

Rainbow City Performing Arts

Tubist

Aug 2025 – Present

Seattle, WA

Team Wyld Punks, DigiPen Institute of Technology

Producer

Jan 2024 – Apr 2025

Redmond, WA

Kappa Kappa Psi, Iota Pi Chapter

Recording Secretary

May 2021 – May 2022

San Luis Obispo, CA

Mustang Band

Librarian

May 2020 – May 2022

San Luis Obispo, CA
